CONTENTS

SEPTEMBER 1996 VOLUME 134 NUMBER 1

Determinations of dye diffusivities in the cell-wall apoplast of roots by a rapid method. By C. Bayliss, C. Van Der Weele and M. J. Canny 1

Morphological and biochemical characterization of spikelet development in naked oats (*Avena sativa*). By Helen J. Ougham, Galina Latipova and John Valentine 5

The effects of rind damage and regeneration on permeability of the apoplast in sclerotia of *Sclerotinia minor*. By Nicola Young and Anne E. Ashford 13

A cytological study of compatible and incompatible interactions between *Sorghum bicolor* and *Colletotrichum sublineolum*. By P. S. Wharton and A. M. Julian 25

Evolutionary comparative analyses of the relationship between leaf structure and function. By D. J. Beerling and C. K. Kelly 35

Drought enhances chilling tolerance in a chilling-sensitive maize (*Zea mays*) variety. By Juan J. Irigoyen, Javier Perez De Juan and Manuel Sanchez-Diaz 53

Regulatory effects of zinc on corn root plasma membrane H^+-ATPase. By Verena Kastrup, Sabine Steiger, Ulrich Lüttge and Elke Fischer-Schliebs 61

Lead phytoextraction: species variation in lead uptake and translocation. By J. W. Huang and S. D. Cunningham 75

Allometric relations and growth in *Pinus taeda*: the effect of elevated CO_2 and changing N availability. By Renate L. E. Gebauer, James F. Reynolds and Boyd R. Strain 85

Contents of free amino acids in Scots pine needles from field sites with different levels of nitrogen deposition. By G. Huhn and H. Schulz 95

Soluble N compounds in trees exposed to high loads of N: a comparison of spruce (*Picea abies*) and beech (*Fagus sylvatica*) grown under field conditions. By Stephan Schneider, Arthur Geßler, Paul Weber, Dominik von Sengbusch, Ulrike Hanemann and Heinz Rennenberg 103

Root colonization of mycorrhizal and non-mycorrhizal pepper (*Capsicum annuum*) by *Pseudomonas fluorescens* 2-79RL. By Petra Marschner and David E. Crowley 115

Decomposition, nitrogen and phosphorus mineralization from beech leaf litter colonized by ectomycorrhizal or litter-decomposing basidiomycetes. By Jan V. Colpaert and Katia K. Van Tichelen 123

A comparison of the extracellular enzyme activities of two ectomycorrhizal and a leaf-saprotrophic basidiomycete colonizing beech leaf litter. By Jan V. Colpaert and André Van Laere 133

Isozyme variation and somatic incompatibility in populations of the ectomycorrhizal fungus *Suillus collinitus*. By K. El Karkouri, J.-C. Cleyet-Marel and D. Mousain 143

Sulphite and pH effects on CO_2 evolution by fungi growing on decomposing coniferous needles. By S. Dursun, Juliet C. Frankland, Lynne Boddy and P. Ineson 155

Sulphur dioxide effects on fungi growing on leaf litter and agar media. By S. Dursun, P. Ineson, Juliet C. Frankland, and Lynne Boddy 167

Late Quaternary vegetational history at Navarrés, Eastern Spain. A two core approach. By J. S. Carrion and M. Dupre 177

Reviews 193

OCTOBER 1996 VOLUME 134 NUMBER 2

A method for rapid quantification of sucrose and fructan oligosaccharides suitable for enzyme and physiological studies. By J. A. St. John, G. D. Bonnett and R. J. Simpson 197

Fructan metabolism in expanding leaves, mature leaf sheaths and mature leaf blades of *Lolium perenne*. Fructan synthesis, fructosyltransferase and invertase activities. By DAVID GUERRAND, MARIE-PASCALE PRUD'HOMME AND JEAN BOUCAUD 205

Comparative measurements of gas-exchange, acid accumulation and chlorophyll *a* fluorescence of different species of *Clusia* showing C_3 photosynthesis, or crassulacean acid metabolism, at the same field site in Venezuela. By A. HAAG-KERWER, T. E. E. GRAMS, E. OLIVARES, E. BALL, S. ARNDT, M. POPP, E. MEDINA AND U. LÜTTGE 215

Physiological and biochemical changes in shoots of coconut palms affected by lethal yellowing. By RUBÉN LEÓN, JORGE M. SANTAMARÍA, LUCELY ALPIZAR, JOSÉ A. ESCAMILLA AND CARLOS OROPEZA 227

Drought–CO_2 interactions in trees: observations and mechanisms. By D. J. BEERLING, J. HEATH, F. I. WOODWARD AND T. A. MANSFIELD 235

Rise and demise of cold-climate *Picea abies* forest in Sweden. By LEIF KULLMAN 243

Absorption of atmospheric NO_2 by spruce (*Picea abies*) trees. II. Parameterization of NO_2 fluxes by controlled dynamic chamber experiments. By BARBARA THOENE, HEINZ RENNENBERG AND PAUL WEBER 257

Effects of elevated CO_2, O_3 and K deficiency on Norway spruce (*Picea abies*): nutrient supply, content and leaching. By T. PFIRRMANN, J. D. BARNES, K. STEINER, P. SCHRAMEL, U. BUSCH, H. KÜCHENHOFF AND H.-D. PAYER 267

The effect of ozone fumigation over one season on photosynthetic processes of *Quercus robur* seedlings. By P. K. FARAGE 279

Interactive effects of ozone and soil volume on *Plantago major*. By C. P. WHITFIELD, A. W. DAVISON AND T. W. ASHENDEN 287

Effect of artificial exclusion and augmentation of fungal plant pathogens on a regenerating grassland. By J. C. PETERS AND M. W. SHAW 295

Effect of 700 μmol mol^{-1} CO_2 and infection with powdery mildew on the growth and carbon partitioning of barley. By J. M. HIBBERD, R. WHITBREAD AND J. F. FARRAR 309

Effects of leaf age, basal meristem and infection with powdery mildew on photosynthesis in barley grown in 700 μmol mol^{-1} CO_2. By J. M. HIBBERD, P. RICHARDSON, R. WHITBREAD AND J. F. FARRAR 317

Superoxide dismutase activity in arbuscular mycorrhizal *Lactuca sativa* plants subjected to drought stress. By J. M. RUIZ-LOZANO, R. AZCÓN AND J. M. PALMA 327

The effects of fertilizer and root competition on seedlings of *Orchis morio* and *Dactylorhiza fuchsii* in chalk and clay soil. By S. L. MCKENDRICK 335

The effects of shade on seedlings of *Orchis morio* and *Dactylorhiza fuchsii* in chalk and clay soil. By S. L. MCKENDRICK 343

Effect of arbuscular mycorrhizal fungi on growth, mineral nutrition and nitrogen fixation of three varieties of common beans (*Phaseolus vulgaris*). By J. IBIJBIJEN, S. URQUIAGA, M. ISMAILI, B. J. R. ALVES AND R. M. BODDEY 353

Effect of a genetically modified *Rhizobium meliloti* inoculant on the development of arbuscular mycorrhizas, root morphology, nutrient uptake and biomass accumulation in *Medicago sativa*. By J. M. BAREA, R. M. TOBAR AND C. AZCÓN-AGUILAR 361

Vertical patterns of testate amoebae (Protozoa: Rhizopoda) and peat-forming vegetation on cutover bogs in the Jura, Switzerland. By ALEXANDRE BUTTLER, BARRY G. WARNER, PHILIPPE GROSVERNIER AND YVAN MATTHEY 371

REVIEWS 383

NOVEMBER 1996 VOLUME 134 NUMBER 3

Tribute to Prof. Dr Horst Marschner i

Announcement ii

Tansley Review No. 89

Uptake of aluminium by plant cells. By ZDENKO RENGEL 389

The interactive effect of irradiance and source of nitrogen on growth and root respiration of *Calamagrostis epigejos*. By VÍT GLOSER, INGEBORG SCHEURWATER AND HANS LAMBERS 407

Resource re-allocation following fruit removal in cucurbits: patterns in cantaloupe melons. By ALI EL-KEBLAWY AND JON LOVETT-DOUST 413

Tissue level localization of acid invertase in leaves: an hypothesis for the regulation of carbon export. By ALISON H. KINGSTON-SMITH AND CHRISTOPHER J. POLLOCK 423

A model for the partitioning of photosynthetically fixed carbon during the C_3-CAM transition in *Sedum telephium*. By ANNE M. BORLAND 433

Responses to water stress in an ABA-unresponsive hybrid poplar (*Populus koreana* × *trichocarpa* cv. Peace) I. Stomatal function. By M. RIDOLFI, M. L. FAUVEAU, P. LABEL, J. P. GARREC AND E. DREYER 445

Responses to water stress in an ABA-unresponsive hybrid poplar (*Populus koreana* × *trichocarpa* cv. Peace) II. Hydraulic properties and xylem embolism. By H. COCHARD, M. RIDOLFI AND E. DREYER 455

Estimations of apoplastic concentrations of K^+ and Ca^{2+} in the vicinity of stomatal guard cells. By D. L. R. DE SILVA, SARAH J. HONOUR AND T. A. MANSFIELD 463

Experiments on the causes of altitudinal differences in the leaf nutrient contents, size and $\delta^{13}C$ of *Alchemilla alpina*. By MICHAEL D. MORECROFT AND F. IAN WOODWARD 471

The genotoxicity of Zn(II) and Cd(II) in *Allium cepa* root meristematic cells. By L. BORBOA AND C. DE LA TORRE 481

Root hemiparasitism in a West African rainforest tree *Okoubaka aubrevillei* (Santalaceae). By E. M. VEENENDAAL, I. K. ABEBRESE, M. F. WALSH AND M. D. SWAINE 487

Effects of repeated parasitism by *Rhinanthus minor* on the growth and photosynthesis of a perennial grass, *Poa alpina*. By W. E. SEEL AND M. C. PRESS 495

Polarity and endoplasmic microtubules in food-conducting cells of mosses: an experimental study. By ROBERTO LIGRONE AND JEFFREY G. DUCKETT 503

Factors determining the growth curve of the foliose lichen *Parmelia conspersa*. By R. A. ARMSTRONG AND S. N. SMITH 517

Aerial dispersal of lichen soredia in the maritime Antarctic. By WILLIAM A. MARSHALL 523

Soybean roots infected by *Glomus intraradices* strains differing in infectivity exhibit differential chitinase and β-1,3-glucanase expression. By MARCIO R. LAMBAIS AND MONA C. MEHDY 531

Effects of soil pH on the ectomycorrhizal response of *Eucalyptus urophylla* seedlings. By NELLY S. AGGANGAN, BERNARD DELL AND NICHOLAS MALAJCZUK 539

REVIEWS 547

The Tansley Fund of *The New Phytologist* Trust ii

Tansley Reviews Nos. 1–90 iii

Tansley Review No. 90

Manipulating secondary metabolism in cultured plant cells. By M. M. YEOMAN AND C. L. YEOMAN 553

Atomic force microscopy study of isolated ivy leaf cuticles observed directly and after embedding in Epon®. By D. CANET, R. ROHR, A. CHAMEL AND F. GUILLAIN 571

A bean epicuticular glycoprotein is present in the extracellular matrices around infection structures of the anthracnose fungus, *Colletotrichum lindemuthianum*. By KATIE A. HUTCHISON, RICHARD J. O'CONNELL, NAOMI A. PAIN AND JONATHAN R. GREEN 579

Mass and energy exchange between the atmosphere and leaf influence gas pressurization in aquatic plants. By S. L. STEINBERG 587

Phragmites die-back: sulphide- and acetic acid-induced bud and root death, lignifications, and blockages within aeration and vascular systems. By J. ARMSTRONG, F. AFREEN-ZOBAYED AND W. ARMSTRONG 601

Prediction of the growth response to elevated CO_2: a search for physiological criteria in closely related grass species. By C. ROUMET AND J. ROY 615

Some foliar characteristics of ash trees (*Fraxinus excelsior*) exposed to ozone episodes. By J. J. J. WILTSHIRE, C. J. WRIGHT, J. J. COLLS, J. CRAIGON AND M. H. UNSWORTH 623

The *Sauromatum guttatum* appendix as an osmophore: excretory pathways, composition of volatiles and attractiveness to insects. By HANNA SKUBATZ, DENNIS D. KUNKEL, WILLIAM N. HOWALD, ROBERT TRENKLE AND BRAJA MOOKHERJEE 631

Cytogenic evidence for autopolyploidy in *Parnassia palustris*. By J. E. WENTWORTH AND R. J. GORNALL 641

The effects of long-term elevated ozone concentrations on the growth and photosynthesis of *Sphagnum recurvum* and *Polytrichum commune*. By L. POTTER, J. P. FOOT, S. J. M. CAPORN AND J. A. LEE 649

The effect of different temperatures on the fatty acid composition of *Rhizobium leguminosarum* bv. *viciae* in the faba bean symbiosis. By MARIE-CLAUDE THÉBERGE, DANIELLE PRÉVOST AND FRANÇOIS-P. CHALIFOUR 657

Inoculum potential of ericoid endophytes of Western Australian heaths (Epacridaceae). By B. J. HUTTON, K. W. DIXON, K. SIVASITHAMPARAM AND J. S. PATE 665

Infectivity of arbuscular mycorrhizal fungi after wetting and drying. By PETER G. BRAUNBERGER, L. K. ABBOTT AND A. D. ROBSON 673

Physiological heterogeneity within fungal mycelia: an important concept for a functional understanding of the ectomycorrhizal symbiosis. By J. W. G. CAIRNEY AND R. M. BURKE 685

Evidence for an up-regulation of the host and a down-regulation of the fungal phospho-fructokinase activity in ectomycorrhizas of Norway spruce and fly agaric. By CHRISTOPH SCHAEFFER, PATRIK JOHANN, UWE NEHLS AND RÜDIGER HAMPP 697

Effects of jasmonic acid on mycorrhizal *Allium sativum*. By MARJANA REGVAR, NADA GOGALA AND POLONA ZALAR 703
